Dear Customer,

Enclosed is a CD ROM with previews from your recent portrait session. These previews have not been retouched and have been prepared for your ordering convenience. Most of the images have been optimized for an 8x10 center crop (meaning the images have been shot wide to accommodate an 8x10 aspect ratio). All prints ordered will be custom cropped. These previews are in a lower resolution to maintain a smaller files size for loading time into your computer. Keep in mind that your computer monitor may not be color calibrated which may alter the true color, contrast and accuracy of the image as viewed on your monitor. The images you select are color calibrated and will be printed at full resolution to insure maximum image quality.

Please select the package and or images you desire to be printed. Using the order form included please complete and submit your order to us within 30 days of receipt of the CD ROM.

As a reminder it is against federal copyright laws to copy any professional photographs, up to a \$10,000.00 fine. Please do not copy our prints.

If you have any questions regarding your images or completing your order don't hesitate to contact us. We will contact you when your order is ready for pickup.

**Referrals Referrals Referrals Referrals Referrals Referrals**

As a reminder... If you refer your friends and family to Reflections Photo Studio we will give you 1) 8x10 or 16 free wallets for each person referred. Simply give your friend one of the enclosed business cards and ask them to mention that you referred them when they schedule their session.

Best Wishes,

John Cover
